

HR Attrition Analysis

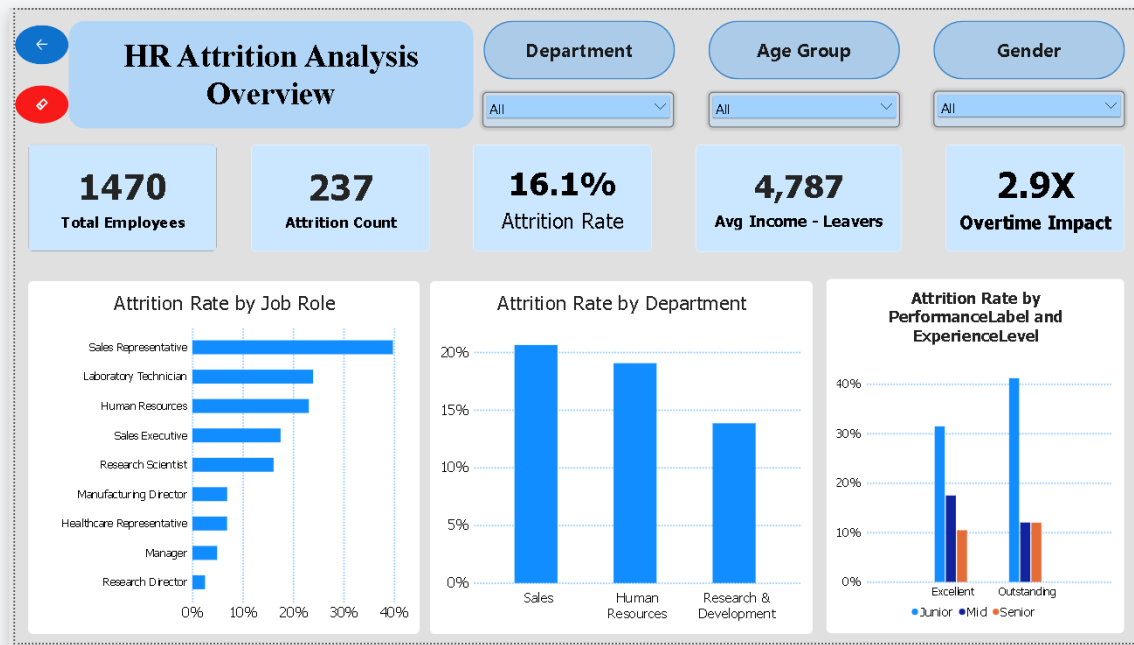

Where we lose people, why, and what to do about it

Interactive Power BI report | 1,470 employees

WHERE

1 in 6 employees has left, and the losses are concentrated

16.1%

237 of 1,470 employees have left

39.8%

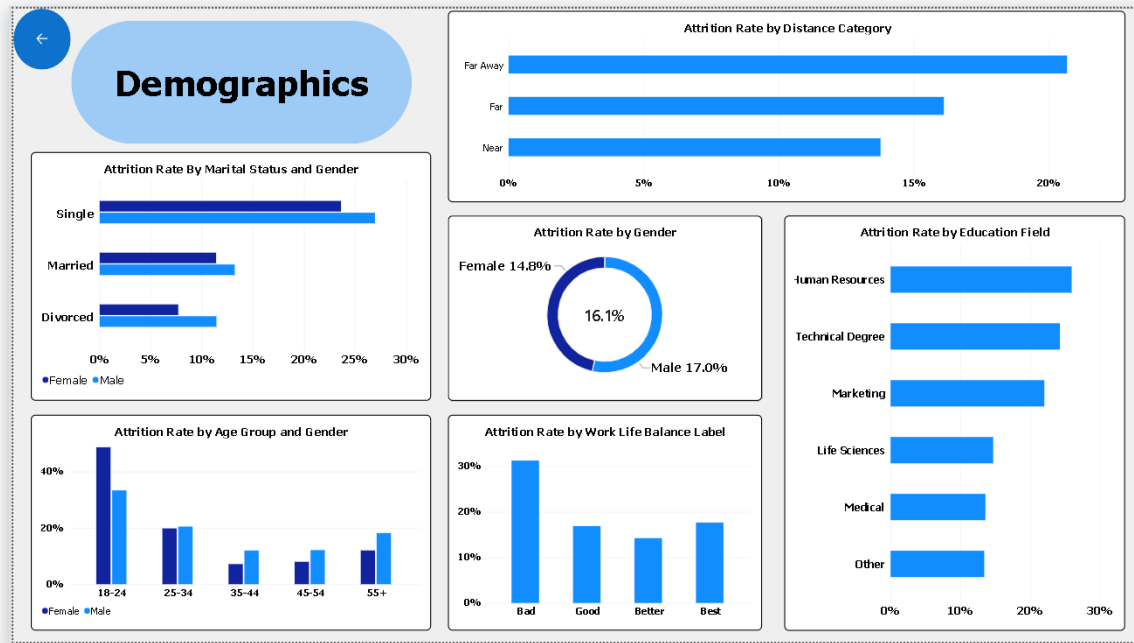

Sales Representatives, the highest of any role

~41%

of junior employees rated Outstanding left (small group)

WHO

Risk rises with poor work-life balance, long commutes, and young age

31.2%

attrition when work-life balance is Bad
(14.2% for Better)

~21%

for Far Away commuters vs ~14% for Near

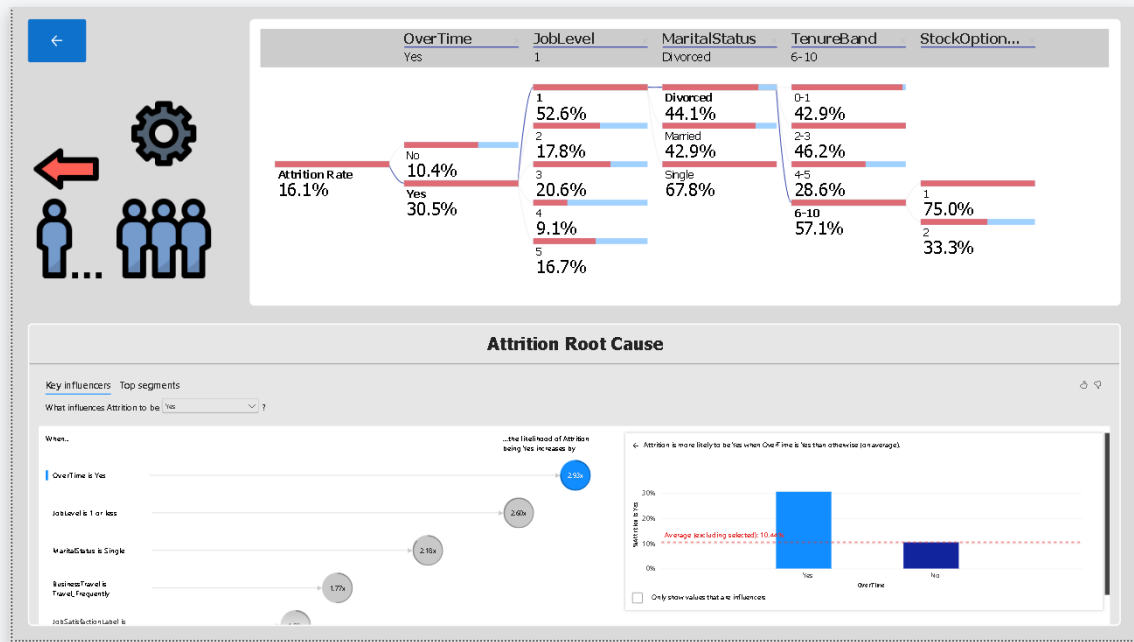

48.6%

of women aged 18-24 left (men: 33.3%)

Overall gender gap is small: 14.8% female vs 17.0% male.

WHY

Root cause: overtime, entry level, and single status compound

30.5%

with overtime vs 10.4% without (2.93x more likely)

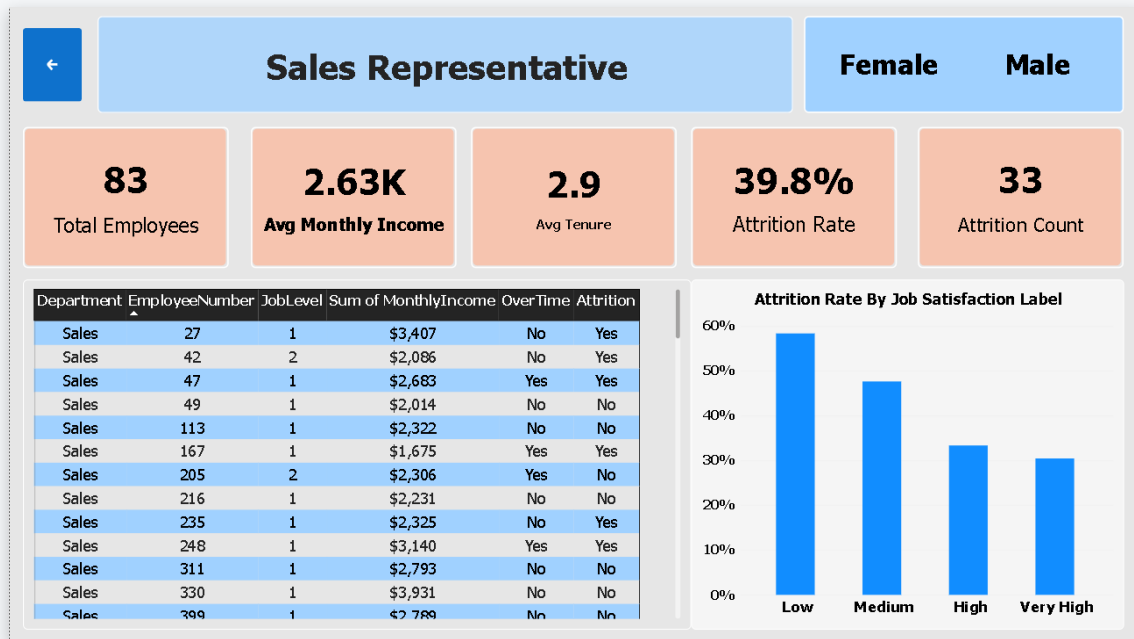

52.6%

Job Level 1 employees working overtime

67.8%

single employees at Level 1 with overtime

Drill into any role: Sales Representatives leave at 39.8%

83 / 33

Sales Representatives / who left

2.63K

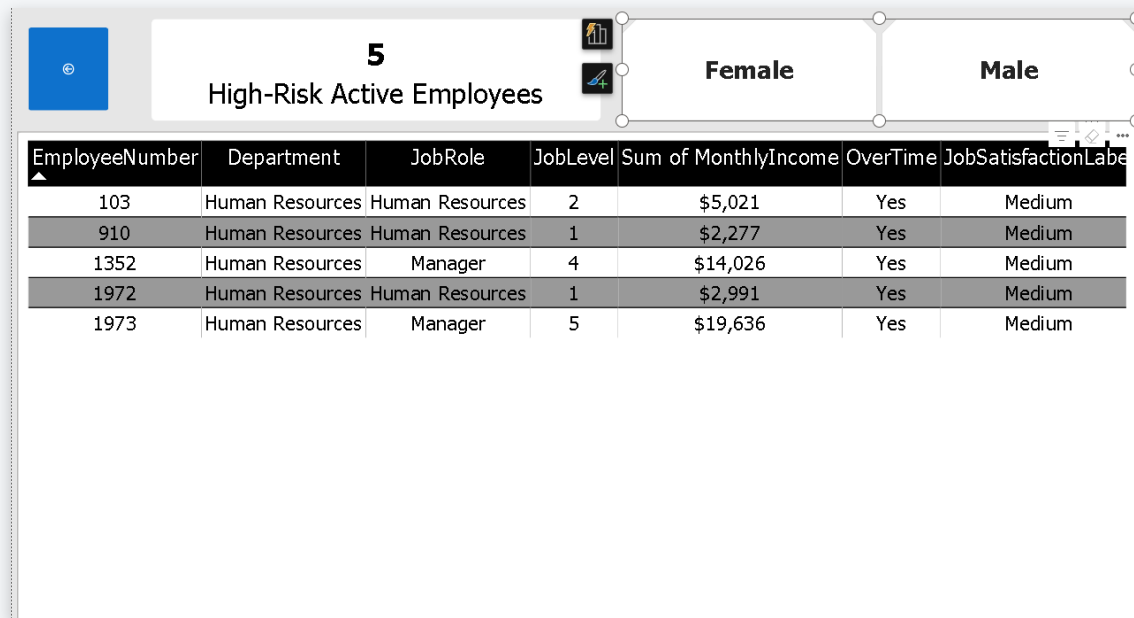

average monthly income, well below the company's other roles

58.3%

attrition when job satisfaction is Low (30.4% Very High)

ACTION LIST

A named list of active employees at risk, ready for managers

5 High-Risk Active Employees						
Female						
Male						
EmployeeNumber	Department	JobRole	JobLevel	Sum of MonthlyIncome	OverTime	JobSatisfactionLabel
103	Human Resources	Human Resources	2	\$5,021	Yes	Medium
910	Human Resources	Human Resources	1	\$2,277	Yes	Medium
1352	Human Resources	Manager	4	\$14,026	Yes	Medium
1972	Human Resources	Human Resources	1	\$2,991	Yes	Medium
1973	Human Resources	Manager	5	\$19,636	Yes	Medium

5

High-Risk Active Employees shown for HR

97

active employees at risk company-wide:
R&D 72, Sales 20, HR 5

Rule

high risk = overtime + low or medium job satisfaction

RECOMMENDATIONS

Four actions, prioritised by evidence

#	Action	Evidence	Target KPI
1	Cap and compensate overtime; follow up the 97 at-risk employees	30.5% vs 10.4%; 2.93x more likely	Overtime attrition below 20%
2	Sales Representative plan: pay structure, workload, career path	39.8% attrition; 2.63K average income	Below 30%
3	Level 1 retention programme: onboarding, workload, path to Level 2	Level 1 + overtime 52.6% vs Level 2 17.8%	Level 1 + overtime below 40%
4	Work-life balance and commute support (hybrid, transport)	Bad balance 31.2%; Far Away ~21%	Bad-balance attrition below 20%

Pilot, measure, and stay honest about the limits

Next steps

- Pilot overtime and Level 1 changes with the Sales team
- Review the report monthly
- Track the four KPIs against a control group

Limits of this analysis

- Single snapshot with no dates, so no trend over time
- Associations only, not proof of causation
- Small groups (e.g. junior high performers) are signals, not proof
- No replacement-cost data, so no savings estimate
